CENTEGIX®

Panic Alert Intelligence for Faster School Emergency Response

RapidDeploy's Radius Mapping and Lightning mobile app now integrate with CENTEGIX® CrisisAlert™, enabling 911 telecommunicators and first responders to instantly receive precise panic alert data from schools the moment an emergency alert is activated. This direct connection enables agencies to respond faster, understand the situation sooner, and take immediate, informed action.

Seamlessly embedded into RapidDeploy's Radius Mapping and Lightning mobile app, CrisisAlert delivers critical details like the location of the incident, type of emergency, user, and school-specific context—all without relying on a phone call.

The system transforms staff-initiated alerts into actionable intelligence for ECCs and first responders, ensuring faster coordination during high-stress school emergencies.

→ Instant signal delivery to ECCs

→ Real-time location visibility

→ Seamless school system integration

→ No call required to activate

RapidDeploy + CENTEGIX:
Seamless Emergency Awareness from Campus to Call Center

Direct Connection to 911

CENTEGIX alerts appear instantly in Radius Mapping, providing real-time insight they need to respond quickly and confidently.

Immediate Notification

Radius triggers visual and audio alerts the moment a signal is received, ensuring telecommunicators don't miss an active school emergency—even on silent.

Send Alerts Based on Location

Radius automatically detects and routes alerts by campus location, enabling seamless support across multiple school sites.

Mission Critical Data

CENTEGIX delivers real-time data directly into Radius Mapping, providing the context ECCs need to respond faster and smarter.

A Smarter, Faster Way to Strengthen School Safety

When emergencies happen, seconds matter. Giving 911 real-time visibility into what's happening on campuses helps teams respond faster and with greater clarity.

With Radius and CENTEGIX, telecommunicators can act quickly, see exactly where help is needed, and coordinate with confidence, even across multiple campuses or jurisdictions. It's an easy, high-impact step that strengthens school safety, supports first responders, and brings your agency one step closer to a more connected emergency response system.

Empowering Safer Schools with CENTEGIX Rapid Emergency Response
